DATE CODING: Pack Date

*4 digit code stamped directly on each case (The number is 2"x1 3/4" in size)

-Explanation: The 1st digit in the date code is the last digit in the current year, and the last 3 digits in the date code correspond with the Julian date code system which works on a 1-365 number system representing the 365 days of the year.

(The # 5 below represents the year 2015-The #127 represents the 127th day of the year which is May 7th. The example below is stating that the product was produced on May 7, 2015.)

Sample: *5127
